# Appointment of

Dear Candidate,

Thank you for your interest in our role of Product Administrator at British Heart Foundation (BHF).

It is my privilege to lead the Technology team for one of the UK's largest charities and the nation's leading independent funder of heart and circulatory disease research.

Our vision is a world free from the fear of heart and circulatory diseases. A world where fewer hearts stop without warning and more of us can live well for longer with the people we love.

We know achieving this won't be easy. But thanks to decades of discovery and scientific advances – we are more confident than ever.

Together, we believe we can stop the devastation for the millions affected by these conditions. All it takes is passionate people like you standing alongside us and believing in the power of research to create a better, brighter, healthier world for everyone.

As a Product Administrator you'll part of a project team responsible for supporting the deployment of Retail Infrastructure and Hardware upgrades across all BHF shops.

We want an exceptional colleague who exemplifies and champions our values; brave, informed, compassionate and driven. It's an incredibly exciting time to be part of our team. We are more ambitious and determined than ever – because the potential cures and treatments we need are in sight. You could be part of getting us there sooner, so thank you for your interest.

BHF is also proud that we are working towards being a truly diverse organisation, with an Equality, Diversity and Inclusion (EDI) strategy, Igniting Change, setting out a roadmap of changes with want to see. Our growing commitment to equality, diversity and inclusion spans across our organisation and we pride ourselves on being an inclusive employer who puts diversity at the heart of everything that we do.

So, if you feel you have the skills and experience that we are looking for, and you share our determination to help fund lifesaving research, then we would be delighted to hear from you.

Chris Brocklesby

Chief Technology Officer

# About us

There is nothing more precious than our hearts. But millions of people's hearts in the UK are vulnerable and need our help. British Heart Foundation (BHF)'s mission is to raise money to fund research that saves and improves lives and supports people affected by heart and circulatory diseases.

For over 60 years we've been a leading independent funder of research into heart and circulatory diseases. We are the UK's largest charity retailer with around 700 stores, an employee base of over 4,000, supported by a further 18,000 volunteers.

With over £430 million of BHF-funded research in progress, we have an aspiration to invest in excess of £1 billion in research by 2030.

We have so much to be proud of. But we know we're just scratching the surface of our true potential. And the challenges we face are as grave as ever.

There is nothing more precious than our hearts. But the tragic reality is that millions of people's hearts are at risk. Mounting numbers of people

face an agonising wait for care, while many more live in hope of treatments and cures that could save or improve their lives.

At the same time, the researchers we fund really are making science fiction a lifesaving reality. From our CureHeart programme, which offers hope of a cure to 30 million people worldwide with an inherited heart muscle disease for the first time in history, to using data science and artificial intelligence (AI) to predict heart attacks before they even happen, we're proud to be backing transformational research that is changing the world.

However, we need your support. By joining BHF, you could help us bring hope to people living with heart and circulatory diseases in the UK.

“

CPR and heart surgery saved my life when I was six. Research made that happen.”

Jadyn Briggs

# Being a responsible charity

We've continued our journey to become a more socially, environmentally and financially sustainable organisation.

Our mission is to save and improve the lives of people affected by heart and circulatory diseases. We raise money to fund research to find cures and develop treatments for the world's biggest killers. And we are determined to do this in a responsible way.

Links between environmental factors and heart and circulatory diseases are clear. Research shows that extreme weather, such as intense heat and cold, have negative impacts on people living with these conditions.

We see it as a key part of our core purpose – to make sure that we carry out our lifesaving work in a responsible way. Our progress this year has included setting our commitment to be a net zero organisation by 2045, at the latest.

This covers all areas of our activities, from direct emissions, such as the heating we use in our BHF offices and stores, to the much more significant indirect emissions from within our supply chain through to how the research we fund is undertaken.

This year we have focused our work on mapping BHF's full carbon footprint. This gives us a detailed view of where and how we can make the most impact to reduce our impact.

Our roadmap to net zero has six key areas for initial focus:

- energy efficient and zero emission buildings
- zero emissions transport
- product sourcing and suppliers
- travel and logistics
- waste and circular economy
- research funding.

These commitments form an ambitious roadmap to be an ever more responsible organisation to our planet and our people.

Sometimes the research we fund may involve animals; this isn't something we take lightly and you can read more about our commitments in research on our website.

# Our strategy to 2030

Rising to unprecedented challenges

We are on a mission to protect all our hearts, so no one has to live in fear of heart and circulatory diseases.

Our strategy to 2030 has guided us in making this impact. It sets out the changes we want to see in the world by 2030, and how our work will help us achieve them.

## Our vision

**A world where everyone has a healthier heart for longer**

## Our goals

What we're trying to achieve

### Stop

Stop heart disease before it starts

### Save

Save more lives from heart disease

### Support

Support everyone with heart disease to live a longer healthier life

## Our priorities

How we'll achieve it

### Inspire

Inspire support and income to power lifesaving research

### Advance

Advance the scale, breadth and impact of cardiovascular research

### Transform

Transform the information, care and support available to all people affected by heart conditions

### Accelerate

Accelerate impact by unlocking the potential of our people, technology and culture

# Belonging

Our push for equality, diversity and inclusion takes many forms, including how we manage our organisation, and how our research funding helps to tackle health inequalities.

An important starting point is making sure BHF's workforce reflects the general population so we can better represent the experiences and voices of the communities we support. A more diverse, inclusive, and fair BHF will not only improve the quality of what we do, but the impact we have.

The ongoing work of Kaleidoscope, our equality, diversity and inclusion group, as well as our Research Inequalities Working Group, demonstrate our commitments to improve equality, diversity and inclusion for our staff, volunteers, and supporters, as well as our funding activities.

We want all of our BHF colleagues to have development and progression opportunities, and to embed a more inclusive culture throughout our organisation. Our EDI strategy, Igniting Change, sets out our roadmap of the changes we want to see.

Our Kaleidoscope group is made up of representatives from across the organisation. Our activities encompass accessibility to work and progression for those with care responsibilities, working parents, those with disabilities and long term health conditions, different age groups, those from underrepresented ethnic backgrounds, LGBTQIA+ individuals and many more forms of diversity, both visible and invisible.

We have a number of affinity groups within the organisation. These include spaces for working parents, individuals from different religious, racial, and ethnic backgrounds, members of the LGBTQIA+ community and those with disabilities and long term health conditions. These are designed to be spaces for colleagues to feel connected, included and heard.

We want to fund lifesaving research for everyone. We can help to achieve this by welcoming colleagues from all backgrounds to come and be part of our BHF family.

# Building an inclusive and supportive environment

Many heart and circulatory diseases are diseases of inequality. Our equality, diversity and inclusion (EDI) strategy, Igniting Change, recognises that everyone's circumstances are unique. We are committed to funding lifesaving research for everyone, and we are committed to being an inclusive employer.

Whilst working at BHF, we actively encourage our colleagues to feel safe to bring their true selves to work. We strive to create a culture where colleagues are inquisitive about diversity and keen to get involved in all activities which make individuality and inclusivity part of what we do every single day.

## Improving diversity in research

Making the world a fairer place is an important goal, one that we are proud to contribute to by tackling inequalities in cardiovascular health, improving the diversity of our research workforce, and making BHF a more inclusive place to work. We want to have achieved greater inclusivity in the funding and the design of research, as well as in the cardiovascular research community. We have focused on collating data that defines our starting point, so we can take the right action to improve diversity.

We've published our first research funding diversity report. The report provided valuable insight that is helping us shape our future actions to address under-representation in our research community.

## Staff engagement

Listening to our colleagues, and understanding what matters, is always the first step in improving the employee experience.

Our highest scoring areas in the latest colleague engagement survey were goal setting, fair treatment, responding appropriately to instances of discrimination and that BHF has created an environment where people of diverse backgrounds can succeed.

## Heartfest

In June 2022 we held our first ever Heartfest, an online festival that brought BHF colleagues together to celebrate our work and give everyone a chance to reconnect with each other and to our cause.

Heartfest has since been a yearly event, growing each year and incorporating both online and in person events at BHF offices and shops across the UK.

## Celebrating Pride

Pride is a chance for us to learn and show support for the LGBTQIA+ community. BHF colleagues have taken part in Pride events across the country since 2018, including Pride marches in Edinburgh, Cardiff, Belfast and London.

# Wellbeing

We take immense pride in fostering an environment that prioritises the health, safety, and wellbeing of our employees, volunteers, and customers. Our excellence in health, safety and wellbeing is about cultivating a culture where every individual feels valued and safe, and our commitment to creating a safe and healthy workspace has been recognised nationally, culminating in the prestigious ROSPA Gold Award we proudly received in 2023.

One of our standout initiatives is the “Live Well Work Well” project group, which plays a pivotal role in enhancing workplace wellbeing. This group organises a myriad of activities and resources aimed at promoting and supporting mental, physical, social and financial health. At BHF, we believe that a safe and healthy workplace is the foundation of success. As we continue to innovate and grow, our commitment to health, safety, and wellbeing remains unwavering. Join us and be a part of an organisation that not only values your professional contributions but also cares deeply about your overall wellbeing.

## A flexibly connected organisation

Our flexibly connected programme allows colleagues based outside of shops and stores to work flexibly, in a way that helps unlock their best work for the cause. The programme has been engaging with our Champions network, gathering insights from colleagues through our Ways of Working Study, to continuously adapt the approach where needed. It was awarded the Best Flexible Working Strategy at the HR Excellence Awards.

Join us at BHF and be part of a team that truly cares about your wellbeing. Together, we can make work to a world where everyone has a healthier heart for longer, while supporting each other every step of the way.

# Our People Power

Our vision is a world where everyone has a healthier heart for longer, but we can't get there without our brilliant colleagues and volunteers.

At the heart of Our People Power sits our central people ambition, through which we will drive performance to further progress and accelerate BHF's lifesaving work, leveraging the unique talents and skills of our people.

We will power up our people to bring their best every day, providing a brilliant work experience, continuing to make BHF a great place to work. Through inspiring, empowering and enabling our people, whatever their role and background, we will collectively power towards our mission to keep hearts beating healthier for longer.

To achieve our strategic aims, we need everyone pulling in the same direction. Our people ambition unites us all, bringing all our people (colleagues and volunteers) together to play their part in creating a world where everyone has a healthier heart for longer.

# Our values

We are proud that the work we do is funding groundbreaking, lifesaving research that one day could see a world free from the fear of heart and circulatory diseases, including conditions such as heart attacks, stroke and vascular dementia.

That's why our values are key to defining who we are, how we do things and how we can achieve our ambitions so that every pound we raise funds the research that keeps millions of hearts beating.

## Brave

We speak out.  
We're decisive.  
We're innovative.

## Compassionate

We're open and honest.  
We respect others.  
We care.

## Informed

We're clear.  
We're open minded.  
We're work together.

## Driven

We're focused.  
We're determined.  
We keep learning.

# Our benefits

We all achieve more together when we're happy and healthy.

As a world class organisation, we offer competitive salaries and an attractive package of benefits, designed to support the health and wellbeing of everyone who works here. Our generous benefits include:

## Annual leave

Our annual leave allowance of 30 days plus bank holidays is among the best in the sector.

## Health care

We offer employees private healthcare, dental health cover and a contribution towards your gym membership.

## Family care

We offer 12-weeks' pay for all family leave including maternity, paternity, adoption and neonatal care leave and are committed to offering returning parents and guardians the opportunity to work flexibly.

## Live well. Work well.

Heart health is central to our mission, and that starts with you. We provide a programme of activities, opportunities and guidance to inspire and support you to live a healthy and happy life, at home and at work.

## Support leave

We offer a holistic support leave of up to 10 days leave to support colleagues in time of uncertainty, where you may need to take additional time away from work to support yourself or others during a life event, such as caring.

## Pensions

Our generous pension scheme will support you to save for your retirement. You can contribute a minimum of 3% but can increase this to 8% or more, with employer contribution starting at 5% and increasing to a maximum of 10%.

## Role Summary

This role will be part of a project team responsible for supporting the deployment of Retail Infrastructure and Hardware upgrades across all British Heart Foundation (BHF) shops, carrying out pre rollout tasks to ensure the deployment can go ahead and post rollout tasks before the site can be transitioned into support.

Responsible for providing technical support remotely to external installation engineers, deployment engineers, retail head office and in-store staff within strict time constraints, this role will resolve all technical incidents and update our ManageEngine case management system. All relevant deployment tracking reports to be maintained in a timely manner ensuring all teams are kept informed of progress.

Working alongside the wider project team, this role will also assist in the mentoring and supervision of the deployment, ensuring that all parties involved are technically supported and the deployment process flows smoothly.

# Key responsibilities

- Provide technical support to BHF staff, suppliers and external engineers
- Remotely support the project teams
- Work within the BHF Framework to resolve all incidents raised to the Technical Deployment team
- Perform daily and weekly admin tasks within allotted time using multiple communication platforms
- Be proactive in ensuring the rollout stores are scheduled and informed of upcoming activities whilst keeping all project teams up to date with the progress and ensure follow-up to completion of the deployment
- Highlight ways to improve and update the process documentation with the purpose of improving the deployment
- Sharing knowledge to continuously improve processes
- Monitoring and reporting on the status of the Deployment
- Work with the wider IT Teams to ensure the security of our data & systems at all times, working in line with business policies and reporting incidents outside of your remit
- Mentor and support fellow members of the Technical Deployment team
- Record all Incidents and actions within the case management system ManageEngine ensuring they are fully documented and accurately categorised
- Thorough and detailed technical updates to the ManageEngine tickets
- Network troubleshooting and diagnostic skills
- Application troubleshooting and diagnostic skills
- Hardware troubleshooting and diagnostic skills
- Create webpages through BHF software
- Shop and store attendance as required
- Providing support with all administration documentation

# Knowledge, training and qualifications

- ITIL Knowledge & Experience
- Technical Knowledge and Practical Experience of:
  - Windows 10/11 OS
  - Understanding of TCP/IP networking in a large WAN environment including Routers/Switches
  - Remote Support Tools (Meraki)
  - Case Management systems (ManageEngine)
  - General understanding of PC and POS Hardware and components

# Experience

- Proven Troubleshooting & Diagnostic experience
- Experience Supporting Mobile & Remote users
- General commercial awareness of impact of client requirements
- Experience within an administration role

## Desirable

- Experience of working on large deployment projects
- Experience working in or supporting retail stores and retail systems
- Experience and/or Knowledge of how a charity operates
- Experience working on mass hardware and software deployment

# Skills and attributes

- Ability to communicate effectively both in writing and verbally
- An organised approach to work
- Granular attention to detail
- Excellent troubleshooting & diagnostic skills
- Customer service skills, in person and over the phone
- Excellent prioritisation & organisational skills
- Works well under pressure with the ability to remain calm and focused regardless of the task at hand
- An enthusiastic team player with the ability to encourage others and take a lead where necessary
- Excellent timekeeping
- Ability to explain complex technical information to non-technical service users
- Able to take a flexible approach to problem solving and resolution
- Proactive approach delivering timely responses and solutions
- Of a mind-set to continuously improve and learn, always looking to improve on the service provided.

## Safeguarding

At British Heart Foundation (BHF), we are committed to creating a safe and rewarding environment for all of our people to work and volunteer. This means we have a robust safeguarding policy to ensure everyone is treated properly, and a whistle blowing service so people can raise any concerns they have confidentially.

## Data protection

During your employment this role will not encounter any personal data. If you find yourself with access to personal data you are not authorised to have, you must report it to your line manager and the IT Service Desk immediately.

# How to apply

To apply for this role please use the apply button via the jobs page on our website. Our process involves submitting your CV and a supporting statement, which should outline your interest and explain how you meet the criteria stated in the person specification.

All applications are managed by our Recruitment team. If you wish to speak with a member of the team regarding the role and your application please contact them on [careers@bhf.org.uk](mailto:careers@bhf.org.uk)

Early application is encouraged as we will review applications throughout the advertising period and reserve the right to close the advert early should we receive a sufficient number of applications.

Should you need any adjustments to the recruitment process at application stage please contact the Recruitment team on [careers@bhf.org.uk](mailto:careers@bhf.org.uk)
